Inspiring Learning, Achieving Excellence

Headteacher: Mr Adam Shelley MEd, BSc Hons, PGCE, NPQH

24 January 2020

Dear Parents

Year 11 Science revision

Further to my previous letter regarding science intervention sessions, please find attached the schedule of revision sessions offered by the Science department between now and the summer examinations. I am very grateful to all of the teachers within my department, who have kindly volunteered their time to run extra sessions, which help students maximise their potential in their GCSE exams.

Some sessions are open to anyone to attend however the high challenge sessions are intended for invited students only. Students have been told if they are to attend these sessions. All these sessions will take place as per the attached rota each week. All after school sessions will run from 3.30pm to 4.30pm all lunch time sessions will run from 12.45pm to 1.15pm.

For every session that students attend, there will be Prom points awarded to encourage hard work during the session. The science team and I appreciate your support in encouraging your child to work with us to maximise their efforts in their Science studies.

Please do not hesitate to contact me if you have any questions about the Science revision provided.

Yours sincerely

Kirsten Hazle
Head of Science Faculty
