

Introducing Kerboodle

Mrs K Hazle

What is Kerboodle?

Kerboodle is an internet based learning platform used by the Science department. It is built to work along side textbooks and is used to support students with home learning.

Kerboodle gives student's access to:

- **Resources** – a bank of learning resources including videos, animations, podcasts, worksheets and much more
- **Digital book** – Online and interactive version of the student books for display and annotation
- **Assessments** – Teachers can set homework through Kerboodle for students
- **MarkBook** – Students can see how they have been doing and progressing, including some instant feedback on certain activities.

Username are all the same to start with. It is the students first initial and their surname.

The school Institution code is gku4.

e.g. Joseph Bloggs would have a username of jbloggs and a password of jbloggs

The school Institution code is gku4.

e.g. Joseph Bloggs would have a username of jbloggs and a password of jbloggs

Using Kerboodle

- Now that you have logged in use this video to help you navigate around Kerboodle.

Username are all the same to start with. It is the students first initial and their surname.

The school Institution code is gku4.

e.g. Joseph Bloggs would have a username of jbloggs and a password of jbloggs

Completing Work

- In your **Assessment or Homework** section, you will only see work your teacher has sent to you. Use the filters in the top left of your screen to help you find your work.
- Click on the title of the assignment you want to look at. A window will appear containing information on your assignment. The work you need to do will be in the top right corner of this window, under the title Test Material. Click on the work to open it. Look out for any special instructions from your teacher, which will be displayed under **Assignment Info**.
- If it is an interactive piece of work you need to complete it on-screen. You must click on Submit at the end of your work to make sure your work is marked.
- If the assignment is not interactive, something like a Word file, PDF or PowerPoint will open. You need to follow the instructions and complete your work in a suitable way.
- You can choose to upload the work online, or you may be able to give it in by hand.

Username are all the same to start with. It is the students first initial and their surname.

The school Institution code is gku4.

e.g. Joseph Bloggs would have a username of jbloggs and a password of jbloggs

Submitting Work

- If the work is interactive, it will automatically be handed in and marked.
- Otherwise, you can upload your piece of work, or give it in by hand. Your teacher may have left particular instructions, so look out for them.
- To submit your work online, you need to be in your **Assessment or Homework** section of the right course. Click on the title of the work, which will open the assignment window. To the bottom left is a box called Your Work, where you can find an Upload button. Click on this button, then choose and open your file. It should now be listed under Your Work.
- You now have two options:
- Save and Close will save your work, but it will not send it to your teacher. If you choose this option, you must go back at some point and click Submit, or you will miss your deadline.
- Submit will save your work and send it to your teacher. You cannot make any changes to it after this point.

Username are all the same to start with. It is the students first initial and their surname.

The school Institution code is gku4.

e.g. Joseph Bloggs would have a username of jbloggs and a password of jbloggs

Digital Book Tools

Name	What does it do?
Next and Previous 	These will move you page by page through the book
Resources 	This gives quick access to any additional resources that relate to this Digital Book.
Notes 	A place to write and save personal notes.
Bookmarks 	Use this tool to create a quick link to particular pages.
Whiteboard Tools 	Make use of a pen, highlighter, sticky notes and a spotlight tool. Save, and hide or reveal your annotations.
Full screen 	Click on this to go into full screen view of the digital book. Use ESC to exit this view.

Single page/Double page view 	Click on either of these to display just a single page at a time, or to display a spread at a time.
Zoom in/Zoom out 	Click the plus to zoom in, the minus to zoom out. Once zoomed in, click on the book page and drag to reposition.
Hand tool 	Click on this to move around the page when you are zoomed in.
Reset view 	Click on this button to reset to the default view.
Magnify tool 	Click on this tool to zoom in on a specific area of the page. Click and drag a square around the section you want to zoom in on.
Table of Contents 	Clicking on a link within the table of contents will jump you to that point in the book.
Go to Page 	Enter a number and hit return (or equivalent button) on your keyboard to jump to any page in the book.
Overlay 	Add a coloured overlay of red, blue, or orange to your book.

Ready to Log in?

Logging in to Kerboodle

The screenshot shows the Kerboodle login interface. On the left, there is the Kerboodle logo and the text "Lessons, Resources, Assessment, and Kerboodle Books" with a link "What is Kerboodle?". On the right, there is a login form with the following fields: "Username/Email" (empty), "Password" (empty), and "Institution Code" (containing "gku4"). Below the "Institution Code" field is a "Remember me" checkbox (unchecked) and a green "Log in" button. At the bottom of the form is a link "Trouble logging in?".

You will have be given your username by your teacher. The first time you log in your **password** will be the same as your **username** but you will need to change this.

Username are all the same to start with. It is the students first initial and their surname.

The school Institution code is gku4.

e.g. Joseph Bloggs would have a username of jbloggs and a password of jbloggs
