

Inspiring Learning, Achieving Excellence

Headteacher: Mr Adam Shelley MEd, BSc Hons, PGCE, NPQH

September 2021

Dear Parents of Year 10 Students

As we begin to move further into this academic year, we find that we are still working with COVID. Students within Year 10 who have had a positive PCR test are required to isolate for 10 days. Those with symptoms should obviously focus on getting better. Those who are isolating without symptoms need to ensure that they are completing schoolwork.

From Monday 20 September, all Year 10 students will be added to a COVID Isolation work, TEAMS group. Once a positive PCR test has been taken, and until the end of their ten day isolation, this TEAMS group will give them access to work and lessons to ensure that they do not fall behind in any subjects. There is an expectation that those who are well enough to work, do so.

The only subjects that are choosing to contact students directly due to topic changes and small group sizes, are; Science, Art, Computer Science and Maths. All others can be found within the FILES section of the TEAMS folder.

If you have any questions regarding this provision, please email Mrs Holder
holdere@colfox.dorset.sch.uk

Many thanks

Emma Holder
Head of Year 10
