

## 6.2 Fibres and Textiles

### Woven fabrics

Explain what the Warp, Weft and Selvedge are

Warp

---

---

Weft

---

---

Selvedge

---

---

Name two types of Woven Fabrics

- .
- .

Draw down how Satin is woven into a fabric

What are the advantages of using Satin - Jacquard?

- .
- .

Where could you use Satin - fabrics?

---

What is the advantage of using Pile – Velvet

- .
- .

Where could you use Pile – Velvet?

---

## 6.2 Fibres and Textiles

### Non – Woven textiles

How are Non Woven textiles formed?

---

---

---

---

---

What are the advantages of using Bonded webs?

- .
- .
- .
- .
- .
- .
- .

Why are they not always the best to use?

- .
- .

Origins of textiles

On the map below, colour code where we can get Cotton, Silk linen and wool fibres.

## 6.2 Fibres and Textiles

Now colour code where we can get Regenerative fibres, Lyocell and Synthetic fibres
