

# Homework 2 – Types of movement, Cams and Followers

## Types of movement

In the table below draw arrows to show the different types of movement and place the name of each type.

Arrow to show movement	Arrow to show movement	Arrow to show movement	Arrow to show movement
Name:	Name:	Name:	Name:
Example	Example	Example	Example

## Cams and followers

In the table below draw four different cams, name them and give an example of where they are used

Name of cam	Name of cam	Name of cam	Name of cam
Drawing of cam	Drawing of cam	Drawing of cam	Drawing of cam
Example of cam	Example of cam	Example of cam	Example of cam

In the table below draw the three different types of followers and name them

Name of follower	Name of follower	Name of follower
Drawing of follower	Drawing of follower	Drawing of follower

Explain which follower would be good for a heavy load?

---

---

Explain which follower would be good for following a complex cam shape.

---
